

We are working for O-I, a leading manufacturer of glass container products.

O-I has more than a century of experience crafting pure, sustainable, brand-building glass packaging for many of the world's best-known food and beverage brands, providing high quality glass packaging for beer, wine, spirits, food, non-alcoholic beverages, cosmetics and pharmaceuticals.

With nearly 27,000 employees working in 80 plants in 23 countries, O-I is a truly global maker of glass packaging.

For their **Italian plants**, we are searching highly motivated and qualified

Graduate Plant Engineers (Full time – Europe/Italy) (GPE - FA – 19)

The selected candidates will be entered in a rotational training program with access to a variety of job activities into a selection of manufacturing **plants across Europe** (4 – 6 months).

At the end of the training program, the candidates will be assigned to selected Italian plant to assist working teams on daily operations and process performance.

S/he will work cooperatively with engineering, technical, and fabrication staff to support production, quality and continuous improvement activities.

What we need

- Degree in Mechanical Engineering
- Some previous work experience is a plus but not mandatory
- Ability to work both individually and as part of a multi-functional team
- Independence-minded and desire to learn making own decisions
- Creativity, enthusiasm and willingness to succeed
- Italian native with strong command of English
- Previous international experience is a plus
- Good knowledge of MS Office package
- Good communications and interpersonal skills, sense of urgency/priority, structured and organized with hands-on approach

S/he must be geographically mobile, both in Italy and Europe.

What you get in return

- Excellent working environment
- Genuine career progression
- A very competitive salary package in line with qualifications and experience
